SKILLS

Ruby, Ruby on Rails, JavaScript, jQuery, React.js, Redux, SQL, Git, HTML5, CSS3

PROJECTS

Spottieottiedopalisciousify

[Live Site](#) | [Github](#)

Responsive single page web-app inspired by Spotify, built with React, Ruby on Rails, PostgreSQL, and Redux.

- Audio files implemented with AWS and Active Storage receiving information about songs and playlists from Rails JSON API backend.
- Utilizes custom styled HTML5 audio player to pause, play, fast forward, and rewind songs in a queue.
- User authentication on front and backend protects playlist CRUD operations from unauthorized users.

Get a Job in Space

[Live Site](#) | [Github](#)

Endless runner game implemented using HTML5 and JavaScript and Canvas.

- Simple physics system and bounding box collision detection between objects implemented with JavaScript and Canvas, creating a fun experience where you avoid the pitfalls of the job hunt.
- Utilizes sprite sheets and the requestanimationframe shim to render animated sprites that move and collide on the canvas.

Chess

[Live Site](#) | [Github](#)

- Console version of chess implemented with ruby. Utilizes the colorize gem, key mapping, and unicode characters, for styling and intuitive functionality.

EXPERIENCE

Online Editorial Content Analyst - Thomas Publishing Company April 2015 - May 2018
